CORPORATE PROFILE

Established in 1991, we are a leading provider of IT consultancy services based in Hong Kong. We were the first company in Hong Kong to be appraised at the highest level (Level 5) of the CMMI-SW model in November 2003. This is a strong endorsement of our commitment to achieving best practice processes and maintaining high quality standards for our IT solutions and services.

Under our IT services segment, we design and implement a broad range of IT software and systems, as well as develop and integrate various software programmes of IT systems to fulfill the outsourcing needs of our customers.

We also provide a vast spectrum of maintenance and support services. In addition, we are engaged in business process outsourcing (BPO). One of our milestone achievements is having won the first business outsourcing project from the Hong Kong Government – covering IT process, IT maintenance and support, as well as office operations and support services.

We have a solid track record of completing over 100 projects for more than 40 government departments, as well as over 20 projects for the private sector in Hong Kong. While our strength has traditionally been in the public sector, we continue to develop our business on the regional commercial front.

We have an experienced management team, supported by a core group of highly competent and

skilled IT professionals. Together, we are committed to continuously engineer innovative IT solutions and deliver excellent IT services.

Our established quality assurance systems, working methodologies and processes allow for a seamless integration of operations across multiple locations. Our software development centres are based in the Philippines and China, where lower costs of operations in these countries enable us to maintain competitive pricing for our tenders, without compromising the quality of our work.

MANAGING DIRECTOR'S MESSAGE

“While the business environment remains competitive, we have been able to rise above challenges and achieve business growth.”

Dear Shareholders,

On behalf of the Board of Directors, I am pleased to report that Azeus has delivered yet another sterling set of results for the financial year ended March 31, 2014 (“FY2014”).

FY2014 Financial Review

The Group continued to strengthen our market position in Hong Kong’s public sector during the year and made good headway in international markets, especially the United Kingdom.

As a result, we achieved record revenue of HK\$170 million in FY2014, up 46% compared to the previous financial year.

Profit attributable to equity holders (“net profit”) declined 40.0% to HK\$18.6 million in FY2014, but this was due to a compensation award received for an arbitration case in the previous financial year of HK\$40.9 million. Excluding the one-off arbitration award and its related legal cost recorded in FY2013, the Group would have reported a 104.3% jump in its net profit.

The Group’s IT services segment remained the largest revenue contributor, accounting for approximately 66.2% of total revenue or HK\$112.4 million in FY2014. Revenue from this segment jumped 93.2% as more contracts were secured and implemented during the year in Hong Kong and the United Kingdom. In addition, the Group recorded project hardware and software sales of HK\$43.0 million in FY2014, compared to HK\$0.2 million in FY2013.

The Maintenance and Support Services (“MSS”) segment saw a 1.7% revenue decline to HK\$44.6 million, contributing 26.2% of total revenue for the review period. Due to lower outsourced income, the Business Process Outsourcing (“BPO”) segment saw a 1.8% drop in revenue to HK\$12.9 million, accounting for the remaining 7.6% of full-year revenue.

Despite higher salaries and hardware and software costs, the Group was able to achieve a gross profit margin of 32.4% in FY2014, compared to 34.0% in FY2013.

Selling and marketing expenses declined 18.9% to HK\$4.5 million due to less pre-sales activities in FY2014. In addition, administrative and other operating expenses declined 25.6% to HK\$27.6 million, mainly due to a decrease in legal and professional fees for the Group’s arbitration case in March 2013.

The Group also remains in a healthy net cash position, with no borrowings and strong cash and cash equivalents of HK\$92.7 million as at March 31, 2014.

The Year in Retrospect

Backed by our capabilities as a leading provider of IT consultancy services, the Group is delighted to have been selected as a prequalified vendor for the Standing Offer Agreements for the supply of IT professional services for the Hong Kong Government effective from 31 July 2013 for four years.

Our efforts to tap the UK IT services market are also yielding results. In the UK, we are pleased to have secured a software services project in the first half of FY2014 with a contract value of UK£604,140. Leveraging on our capabilities, the Group will continue to invest and work towards securing more contracts from this new market.

Meanwhile, the latest version of our board portal and paperless board meeting software solution - *Anywhere Pad* - targeting governments, corporations and non-governmental organisations (“NGOs”) met with strong response during the year under review. Sales of the software service jumped 150% in the January to March period in calendar year 2014 compared to the same period in 2013.

We have since built a strong base of customers for *Anywhere Pad* - ranging from banking, finance, insurance, retail, healthcare, education, government and charity organisations across North America, Europe, Africa, Asia and Australia. In the UK, the Group’s clients include NHS Swindon Clinical Commissioning Group and the London Overground Rail Operations Ltd. A leading medical aid scheme provider in South Africa also signed on as a customer early this year.

Besides being included in the UK G-Cloud Framework under the United Kingdom Government Cloud Store, *Anywhere Pad* is also a qualified software service on the Hong Kong Government Public Cloud Services programme. These accreditations allow the software cloud service to be delivered to public sector bodies in the UK and Hong Kong.

While the revenue contribution from this segment is still small relative to our IT consultancy services, this is part of Azeus’ efforts to tap our intellectual property for cloud-based solutions.

Looking Ahead

Going forward, Azeus will continue to focus on sustaining our market share in the Hong Kong public sector by delivering high-value complex IT systems. Given our strong track record and expertise, we are cautiously optimistic about the growth of our IT services business in Hong Kong and the international markets.

At the same time, the Group will step up marketing efforts to grow our customer base for intellectual assets in cloud technology. While revenue contribution from this new segment is still small relative to our core IT consultancy services, we hope that this will accelerate the growth of client take-up of our cloud-based offerings.

Rewarding our Shareholders

Having achieved a sterling set of results, the Board would like to thank our loyal shareholders for their continued support and confidence in Azeus, by declaring a first and final dividend of 6.21 HK cents per ordinary share.

Words of Appreciation

While the business environment remains competitive, we have been able to rise above challenges and achieve business growth. Our success would not have been possible if not for the unyielding support of our stakeholders.

Therefore, on behalf of the Board of Directors, I would like to express my most sincere appreciation to all employees, customers, shareholders and business partners. As we enter yet another year ahead, I look forward to your continued support as we strive to scale greater heights.

Yours sincerely,

Lee Wan Lik

CORPORATE GOVERNANCE REPORT

The directors and the management of the Company are committed to maintaining a high standard of corporate governance and transparency in order to protect the interests of the shareholders of the Company. Processes and procedures have been instituted and are being constantly reviewed and revised to ensure effective corporate governance.

Rule 710 of the SGX-ST Listing Manual requires an issuer to describe its corporate governance practices with specific reference to the principles of the Code of Corporate Governance 2012 (the "Code") in its annual report. An issuer is required to disclose any deviations from any Principles and Guidelines of the Code together with an appropriate explanation for such deviation in the annual report. This report outlines the Company's corporate governance processes and activities with specific reference to the Code. The Company has complied with the principles and guidelines as set out in the Code where appropriate.

BOARD MATTERS

Principle 1: The Board's Conduct of its Affairs

The Board supervises the management of the business and the affairs of the Company and the Group. Apart from its fiduciary duties and statutory responsibilities, it also focuses on formulating the strategic direction and policies of the Company and the Group, paying particular attention to the growth of the Group and its financial performance. It has delegated the formulation of business policies and day-to-day management to the Executive Directors.

The principal functions of the Board are to:

- (a) provide entrepreneurial leadership, set strategic objectives, and ensure that the necessary financial and human resources are in place for the company to meet its objectives;
- (b) establish a framework of prudent and effective controls which enables risks to be assessed and managed, including safeguarding of shareholders' interests and the company's assets;
- (c) review management performance;
- (d) identify the key stakeholder groups and recognise that their perceptions affect the Company's reputation;
- (e) set the Company's values and standards (including ethical standards), and ensure that obligations to shareholders and other stakeholders are understood and met; and
- (f) consider sustainability issues, e.g. environmental and social factors, as part of its strategic formulation.

The Board meets at least twice a year to review and deliberate on the key activities and business strategies of the Group, including reviewing and approving acquisitions and financial performance, and to endorse the release of the interim and annual results. Ad hoc meetings are held as and when circumstances require, such as to address significant transactions or issues. The Company's Bye-Laws provides for Directors to participate in Board and Board committee meetings by means of teleconference, video-conferencing and visual equipment.

To assist in the efficient implementation and execution of its responsibilities, the Board has established an Audit Committee, a Nominating Committee and a Remuneration Committee. Specific responsibilities have been delegated to each of the committees. The Board accepts that while these Committees have the authority to examine particular issues and will report to the Board their decisions and recommendations, the ultimate responsibility for the final decision on all matters lies with the entire Board.

CORPORATE GOVERNANCE REPORT

The Board through the Nominating Committee ensures that it recruits to the Board only individuals of sufficient calibre, knowledge and experience to fulfill the duties of a director appropriately. Newly appointed directors are briefed on the Group's business activities and governance practices and provided with information on their duties and obligations as a director under the Bermuda law.

During the financial year ended 31 March 2014, the number of meetings held by the Board and its committees and the details of the attendances are as follows:-

	Board of Directors	Audit Committee	Remuneration Committee	Nominating Committee
Number of Meetings held	2	2	1	1
Name	Number of Meetings attended			
Mr Lee Wan Lik (Managing Director and CEO) - spouse of Lam Pui Wan	2	2*	1*	1
Ms Lam Pui Wan (Executive Director) - spouse of Lee Wan Lik	2	2*	1*	1*
Mr Michael Yap Kiam Siew (Independent Director)	2	2	1	1
Mr Koji Miura (Independent Director)	2	2	1	1*
Mr Chan Ching Chuen (Independent Director)	1	1	0	0

Notes: *- by invitation

Key matters that are specifically reserved for the Board's consideration and decision include, but are not limited to, corporate planning, material acquisitions and disposals of assets, corporate or financial restructuring, share issuances, formulation of any dividend policy or the change of such dividend policy, declaration of dividends and determining the remuneration policy for the Directors.

Principle 2: Board Composition and Guidance

The Board currently comprises of 5 members, three of whom are independent non-executive directors. A brief profile of each Director is presented in the profile of Board of Directors section of this Annual Report and their shareholdings in the Company and its subsidiaries as at 31 March 2014 are disclosed in the Directors' Report of the Audited Financial Statements for the financial year ended 31 March 2014.

The Board has examined its size and is of the view that it is an appropriate size for effective decision-making, taking into account the scope and nature of the operations of the Company.

The Nominating Committee is responsible for reviewing the composition of the Board to ensure that the Board has the appropriate mix of expertise and experience, and collectively possess the necessary core competencies for effective functioning and informed decision-making. The Board in consultation with the Nominating Committee has reviewed its composition and is satisfied that such composition ensures that there is adequate representation in respect of potential issues and challenges, without compromising the Board's effectiveness and participation in decision-making. Objectivity on issues deliberated by the Board is assured, given the majority of non-executive directors who are independent of management and are also independent in terms of character and judgement.

CORPORATE GOVERNANCE REPORT

Even though Mr Michael Yap Kiam Siew and Mr Koji Miura have served on the Board for more than nine years, the Board is of the view that they are still independent from management and provide a strong independent element on the Board, being free from any business or other relationship which could materially interfere with the exercise of their judgement. These directors continue to provide stability to the Board and the Company has benefited greatly from the presence of individuals who are specialists in their own field. Furthermore, their length of service on the Board has not only allowed them to gain valuable insight into the Group, its business, markets and industry, but has also given them the opportunity to bring the full breadth and depth of their business experience to the Company.

Principle 3: Chairman and Chief Executive Officer (“CEO”)

The Group's Chairman, Managing Director and CEO is Mr Lee Wan Lik, who is responsible for the day-to-day operations of the Group, as well as monitoring the quality, quantity and timeliness of the flow of information between the Board and the management. Mr Lee is the founder of the Group and has played a key role in developing the Group's business. He is being assisted by a group of Executive Directors and Executive Officers in carrying out his executive duties and responsibility for the Group's operation and business. Through the Group's success and development in these few years, Mr Lee has demonstrated his vision, strong leadership and enthusiasm in this business.

The Board is of the opinion that the role of Mr Lee as the Chairman and CEO of the Company does not affect the independence of the Board as the Independent Directors make up more than 50% of the Board.

Taking cognizance that the Chairman and the CEO are the same person, the Board has appointed Mr Michael Yap Kiam Siew as Lead Independent Director, the appointment being effective for the financial year ended 31 March 2015 onwards. Mr Yap will be available to shareholders where they have concerns where contact through the normal channels of the Chairman, CEO or CFO has failed to resolve or for which such contact is inappropriate.

Principle 4: Board Membership

The Nominating Committee (“NC”) comprises Mr Chan Ching Chuen as Chairman, Mr Michael Yap Kiam Siew and Mr Lee Wan Lik as members.

The NC should make recommendations to the Board on relevant matters relating to:-

- (a) the review of board succession plans for directors, in particular, the Chairman and for the CEO;
- (b) the development of a process for evaluation of the performance of the Board, its board committees and directors;
- (c) the review of training and professional development programs for the Board; and
- (d) the appointment and re-appointment of directors (including alternate directors, if applicable).

Subject to the Board's approval, the NC will also decide on how the Board's performance is to be evaluated, and propose objective performance criteria which are dependent on how the Board has enhanced long-term shareholder value. Appointments to the Board are made on merit and against objective performance criteria.

To help build a culture of performance and stewardship amongst its Board members, the Group ensures that all the Directors step down and offer themselves for re-election at regular intervals of at least once every three (3) years. The Company's Bye-Laws provide that at least one-third of the Directors for the time being (or if their number is not three or a multiple of three, then the number nearest to but not less than one third) shall retire from office by rotation.

CORPORATE GOVERNANCE REPORT

In the selection and nomination for new Directors, the NC identifies the key attributes that an incoming director should have, based on attributes of the existing Board and the requirements of the Group. After endorsement by the Board of the key attributes, the NC taps on the resources of the Directors' personal contacts for recommendations of potential candidates. The potential candidates will go through a short listing process. Interviews are then set up with the short listed candidates for the NC to assess them before a decision is made.

A newly appointed Director will have to submit himself for retirement and election at an Annual General Meeting ("AGM") immediately following his appointment and thereafter, be subjected to retirement by rotation.

Each member of the NC shall abstain from voting on any resolution with respect to the assessment of his performance for re-nomination as a Director.

The Board has set the maximum number of 10 listed company board representations which any Director of the Company may hold at any one time. All Directors have complied with this requirement.

Please refer to the Profile of Board of Directors as set out on Page 8 of the Annual Report for key information on the Directors, and the Notice of AGM as set out on Page 69 of the Annual Report for Directors proposed for re-election or re-appointment (as the case may be). Currently, no alternate Directors have been appointed in respect of any of the Directors.

Principle 5: Board Performance

The NC will assess the effectiveness of the Board as a whole and its board committees and the contribution of by the Chairman and each Individual Director to the effectiveness of the Board.

The NC, in considering the re-appointment of a director, will evaluate the performance of the Director's contributions such as his or her attendance record at meetings of the Board and board committees, active participation during these meetings and the quality of his or her contributions. The NC has initiated the assessment of the effectiveness of the Board as a whole on an annual basis. The evaluation of the Board's performance is conducted by means of a questionnaire which is then collated and the findings analysed and discussed. The result of the Board's performance assessment are reviewed and circulated to the Board for consideration. Recommendations to further enhance the effectiveness of the Board are implemented as appropriate. Each Director also carries out an assessment of the performance of each board committee.

The Board has allocated budgets for Directors to attend training and will make recommendations to the Board on the training and professional development programmes for the Board members.

Principle 6: Access to Information

To assist the Board in fulfilling its responsibilities, the management provides the Board with management reports containing complete, adequate and timely information prior to Board meetings and as and when the need arises. Papers containing relevant background or explanatory information required to support the decision-making process, are prepared for each Board meeting and are normally circulated in advance of the meeting.

The Board is also provided with updates on the relevant new laws, regulations and changing commercial risks in the Company's operating environment. Orientation to the Company's business strategies and operations is conducted as and when required.

CORPORATE GOVERNANCE REPORT

All Directors have separate and independent access to senior management and to the Company Secretaries. The Company Secretaries administer, attend and prepare minutes of the Board meetings, and assist the Chairman in ensuring that the Board procedures are followed and reviewed so that the Board functions effectively. The Company Secretaries also advise the Board on governance matters, and assist the Board on compliance with the Company's Bye-Laws and relevant rules and regulations, including requirements of the Listing Manual of the Singapore Exchange Securities Trading Limited (SGX-ST).

REMUNERATION MATTERS

Principle 7: Procedures for Developing Remuneration Policies

The Remuneration Committee ("RC") comprises Mr Michael Yap Kiam Siew as Chairman and Mr Koji Miura and Mr Chan Ching Chuen as members. All of them are Independent Directors of the Company.

The RC is responsible for:-

- (a) recommending to the Board a remuneration framework for the Board key management personnel;
- (b) determining a specific remuneration package for each Director and each of the key management personnel; and
- (c) considering all aspects of remuneration, including but not limited to Directors' fees, salaries, allowances, bonuses, options, share-based incentives and awards, and benefits-in-kind.

Principle 8: Level and Mix of Remuneration

The Executive Directors do not receive director's fees. The remuneration of the Executive Directors and the key management personnel comprises a basic salary component and a variable component which is the annual bonus, based on the performance of the Group as a whole or their individual performance.

Principle 9: Disclosure on Remuneration

Directors' remuneration

A breakdown, showing the level and mix of each individual director's remuneration paid or payable for the financial year ended 31 March 2014 is as follows:

Name of Director	Salary	Bonus	Director's fees	Termination, retirement and post-employment benefits	Total
Mr Lee Wan Lik – spouse of Lam Pui Wan	HK\$600,000	–	–	HK\$15,000	HK\$615,000

Total remuneration paid in FY2014 to the key executives	HK\$1,600,000	HK\$178,000	HK\$209,000	HK\$1,987,000

The remuneration of the Independent Directors is in the form of a fixed fee. The fees of the Directors will be subject to shareholders' approval at the AGM.

Mr Lee Wan Lik has entered into a service agreement (the "Service Agreement") with the Company. The Service Agreement is valid for a term of one year with effect from 3rd September 2004, and thereafter continues from year to year unless terminated in accordance with the provisions of the Service Agreement. The Service Agreement can be terminated by either party giving not less than three months' notice provided that the Company shall have the option to pay three months' salary in lieu of any required period of notice. Except for such payment in lieu of notice as provided for under the Service Agreement, no compensation or damages are payable by the Company to Mr Lee Wan Lik in respect of his termination in accordance with the terms of the Service Agreement.

There are no employees who are immediate family members of a Director whose remuneration exceeded S\$50,000 in the financial year ended 31 March 2014.

Annual bonus

The remuneration packages of the Executive Directors and key management personnel include a discretionary variable annual bonus which is based on the Company's and the individual's performance and have been designed to align their interests with those of shareholders. The key management personnel have met the performance conditions required of them for the financial year ended 31 March 2014.

Share option scheme

The Company has a share option scheme known as the Azeus Employee Share Option Scheme (the "Scheme"), which was approved by shareholders of the Company. The Scheme complies with the relevant rules as set out in Chapter 8 of the Listing Manual. Under the Scheme, share options can be granted to eligible employees, including executive and non-executive directors of the Company and its subsidiaries. However, qualified persons who are also the Company's controlling shareholders or their associates may not participate in the Scheme. The Scheme will provide eligible participants with an opportunity to participate in the equity of the Company, so as to incentivise and motivate them towards better performance through increased dedication and loyalty. The Scheme is administered by the RC and the RC has been authorised to determine the terms and conditions of the grant of the options.

CORPORATE GOVERNANCE REPORT

Under the Scheme, the aggregate number of shares to be issued shall not exceed 15 per cent of the total issued number of the issued shares (excluding treasury shares) of the Company from time to time. The options grant the right to the holder to subscribe for new ordinary shares of the Company at a discount to the market price of the share (subject to a maximum limit of 20 per cent) or at a price equal to the average of the last dealt prices of the shares on the Singapore Exchange Securities Trading Limited ("SGX-ST") for the three consecutive days on which the SGX-ST is open for trading of securities immediately preceding the date of the grant of the option.

No options have been granted to controlling shareholders, key management or employees of the Company and its subsidiaries or their associates since the inception of the Scheme.

ACCOUNTABILITY AND AUDIT

Principle 10: Accountability

The Board is accountable to the shareholders while the management is accountable to the Board.

The Board provides the shareholders with a detailed and balanced explanation and analysis of the Company's performance, position and prospects on a half-yearly basis.

In order to keep the Board informed about the developments in the Company, the management provides the Board with appropriately detailed management accounts of the Group's performance, position and prospects on a half-yearly basis. The management also provides the Board with timely, accurate and complete information on all matters requiring the Board's decision.

Principle 11: Risk Management and Internal Controls

The Board is responsible for ensuring that there is a system of internal financial controls, operational and compliance controls and information technology controls, and risk management policies and for reviewing its adequacy and effectiveness. The management is responsible for internal control and for ensuring compliance therewith. The Audit Committee ("AC") assists the Board in discharging its internal control review responsibilities. The Board makes continuous efforts to embed internal controls into the operations of the businesses and to deal with areas of improvement which come to the attention of management and the Board.

The Company has engaged BDO Financial Services Limited, the internal auditor, to perform a risk assessment update and perform a follow-up review and test of key controls for identified risks in key areas of the Group's operations, with the objectives of mitigating the risks and enhancing operating effectiveness. Material non-compliance and internal control weaknesses as well as recommendations for improvements noted during the audit were reported to the AC. The AC has reviewed the effectiveness of the action taken by the Management on the recommendations made by the internal auditor in this respect.

The Board notes that these internal control systems are designed to manage rather than to eliminate the risk of failure to achieve business objectives. In addition, these systems can only provide reasonable but not absolute assurance against material misstatement or loss.

For FY2014, the Board is of the view that based on the reports from the internal auditor, the system of internal controls that has been maintained by management throughout the financial year is adequate to meet the needs of the Company.

CORPORATE GOVERNANCE REPORT

The Board has received assurances from the CEO and the CFO that the financial records have been properly maintained and the financial statements give a true and fair view of the Company's operations and finances. The Board has also received assurance from the CEO and CFO that the risk management and internal control systems of the Company is adequate and effective to deal with major risks relating to financial, operational and compliance aspects.

Principle 12: Audit Committee (“AC”)

The AC comprises three independent non-executive directors, with Mr Koji Miura as Chairman, and Mr Michael Yap Kiam Siew and Mr Chan Ching Chuen as members. None of the members of the AC was a former partner or director of the External Auditors, PricewaterhouseCoopers LLP.

The AC has kept the recent and relevant accounting or related financial management expertise or experience up-to-date by attending the training provided by the relevant regulatory parties.

In addition, the auditor of the Company provides update on recent developments to accounting standards to AC members on half yearly basis to ensure all AC members and management to keep abreast of the changes to accountings standards and issues which have a direct impact on financial statements.

The AC will meet periodically to, inter alia:

- (a) review the significant financial reporting issues and judgements so as to ensure the integrity of the financial statements of the Company and any announcements relating to the Company's financial performance;
- (b) review and report to the Board at least annually the adequacy and effectiveness of the Company's internal controls, including financial, operational, compliance and information technology controls (such review can be carried out internally or with the assistance of any competent third parties);
- (c) review the effectiveness of the Company's internal audit function;
- (d) review the scope and results of the external audit, and the independence and objectivity of the external auditors; and
- (e) make recommendations to the Board on the proposals to the shareholders on the appointment, re-appointment and removal of the external auditors, and approving the remuneration and terms of engagement of the external auditors.

Apart from the above functions, the AC will also commission and review the findings of internal investigations into matters where there is any suspected fraud or irregularity, failure of internal controls, or infringement of any law, rule or regulation which has or is likely to have a material impact on our Company's operating results or financial position. Each member of the AC will abstain from voting in respect of matters in which he is interested.

The AC is empowered to investigate any matter relating to the group's accounting, auditing, internal controls and/or financial practices brought to its attention, with full access to records, resources and personnel, so as to enable it to discharge its functions properly.

The AC, having reviewed the volume of non-audit services to the Company by the external auditors, is satisfied that the nature and extent of such services will not prejudice the independence and objectivity of the external auditors.

The AC has accordingly recommended to the Board that the auditor, PricewaterhouseCoopers LLP, be nominated for re-appointment as auditor at the forthcoming Annual General Meeting of the Company.

CORPORATE GOVERNANCE REPORT

For the financial year ended 31 March 2014, remuneration paid and payable to PricewaterhouseCoopers LLP in relation to audit services was \$748,000. There were no fees paid or payable to PricewaterhouseCoopers LLP in relation to non-audit services for the financial year ended 31 March 2014.

In line with the Code of Corporate Governance 2012, a private session between the AC with the external and the internal auditors was held to discuss any matters concerning the Company without the presence of the Management.

Principle 13: Internal Audit

The Company has not established an internal audit function but the Company has appointed an independent qualified firm of auditors - BDO Financial Services Limited as its internal auditor to review the effectiveness of the Company's material internal controls. The AC will hire, remove, evaluate and compensate internal auditors.

The resulting report issued by the internal auditor is reviewed in detail by the AC in conjunction with management. The AC will consider the effectiveness of responses / actions taken by management on the audit recommendations and observations.

The Board shall consider expanding its internal audit resources as and when the need arises.

SHAREHOLDERS' RIGHT AND RESPONSIBILITIES

Principle 14: Shareholder Rights

The Company respects and upholds shareholders' rights, and tenders its communication with shareholders with care. The Board recognises and exercises its overall responsibility to shareholders, by ensuring accurate financial reporting for the Company's overall internal control framework, including financial, operational and compliance controls, risk management policies and through systems needed to safeguard the shareholders' investments and assets of the Company. The Company's articles were amended to provide for the attendance by nominees of shareholders at general meetings. We encourage and facilitate shareholder engagement and participation through our meetings and briefings referred to in Principle 15 (below).

Principle 15: Communication with Shareholders

The Company engages in regular, effective and fair communication with shareholders. The Board is mindful of the obligations to provide timely information and full disclosure of material information to shareholders in accordance with the statutory requirement and the listing manual of the SGX-ST. Information is communicated to shareholders on a timely basis. All material information and financial results are released through SGXNET.

Notice of Annual General Meeting ("AGM") and Annual Reports are issued to all shareholders of the Company. The Notice of AGM is also advertised in newspaper and announced via SGXNET. Information on major new initiatives of the Company is also disseminated via SGXNET, news release and made available on the Company's website.

Regular meetings are held with investors, analysts, fund managers and the press. The Group also has a corporate web-site (www.azeus.com) where shareholders and members of the public are able to access up-to-date corporate information and new events related to the Group.

While the Company has no official policy on the payment of dividends, it has consistently paid out the bulk of its profits as dividends since its listing in 2004. The amount of dividends paid each year will depend on factors that include the Group's profit level, cash position and future cash needs.

CORPORATE GOVERNANCE REPORT

Principle 16: Conduct of Shareholder Meetings

The Annual General Meeting of the Company represents the principal forum for dialogue and interaction with all shareholders. At each Annual General Meeting, the Board welcomes questions from shareholders who have an opportunity to raise questions or share their views regarding the proposed resolutions and the Company's business and affairs, either informally or formally before or at the AGM.

The Chairman of the board committees, Directors, senior management and external auditors will be present and available at the general meeting to attend to the queries/questions from shareholders.

As a matter of policy and practice, minutes of general meetings including comments from shareholders, on all or any issues on the agenda, and responses from the Board and management, are always available to shareholders upon request.

Code of Business Conduct

The Directors, officers and employees are required to observe and maintain high standards of integrity, as are in compliance with law and regulations and the Company's policies.

Dealings in Securities

The Company has adopted an internal code of practice for securities transactions by all Directors, officers and employees of the Group in compliance with Rule 1207(18) of the Listing Manual of SGX-ST.

In compliance with the above-mentioned Rule, Directors, officers and employees of the Group have been advised not to trade in the listed securities of the Company when in possession of unpublished price-sensitive information or on short-term considerations. Directors, officers and employees are also not to trade in the Company's securities during the period commencing one month before the announcement of the Company's half year and full year financial results and ending on the day of the announcement of the relevant results. All directors, officers and managers are also required to file with the Company regular reports on all their dealings in the listed securities of the Group during the financial year.

Material Contracts

There were no material contracts (including loans) of the Company or its subsidiaries involving the interests of the chief executive officer, directors or controlling shareholders which subsisted at the end of the financial year or have been entered into since the end of the previous financial year.

Risk Management

The Company does not have a Risk Management Committee. However, management regularly reviews the Group's business and operational activities to identify areas of significant business risks as well as appropriate measures to control and mitigate these risks. The management reviews all significant control policies and procedures and highlights all significant matters to the Board and the AC.

Interested Person Transactions

The Group has adopted an internal policy in respect of any transactions with interested persons and established procedures for the review and approval of such transactions.

An interested person transactions will be properly documented and submitted to the AC for half-yearly review to ensure that they are carried out on an arm's length basis, on normal commercial terms and will not be prejudicial to the interests of the Company and its minority shareholders.

There were no significant interested person transactions during the financial year.

CORPORATE GOVERNANCE REPORT

Whistle Blowing Policy

The whistle blowing policy of the Group serves to encourage and provide a good channel to employees to report and to raise, in good faith and in confidence, concerns about possible improprieties in financial reporting, criminal activities, failure to comply with the laws and regulations, any suspected wrongdoing of fraud or other matters. A well-defined process ensures independent investigation of such matters and the assurance that employees will be protected to the extent possible from reprisals. Under the policy, employees may report their concerns to either the human resource department or even approach the Independent Directors.

Directors' contractual benefits

Since the end of the previous financial year, no director has received or become entitled to receive a benefit by reason of a contract made by the Company or a related corporation with the director or with a firm of which he is a member or with a company in which he has a substantial financial interest, except as disclosed in the accompanying financial statements and in this report, and except that Mr Lee Wan Lik and Ms Lam Pui Wan have employment relationships with a subsidiary and have received remuneration in those capacities.

Share options

Azeus Employee Share Option Scheme

On 14 September 2004, the shareholders at a Special General Meeting approved an employee share option scheme known as the "Azeus Employee Share Option Scheme" (the "Scheme") to grant share options to eligible employees, including executive and non-executive directors of the Company and its subsidiaries. However, qualified persons who are also the Company's controlling shareholders or their associates may not participate in the Scheme. The options grant the right to the holder to subscribe for new ordinary shares of the Company at a discount to the market price of the share (subject to a maximum limit of 20%) or at a price equal to the average of the last dealt prices of the shares on the Singapore Exchange Securities Trading Limited ("SGX-ST") for the three consecutive Market Days immediately preceding the date of the grant of the option.

The Scheme is administered by the Remuneration Committee which comprises the following three directors:

1. Mr Michael Yap Kiam Siew (Chairman)
2. Mr Koji Miura
3. Mr Chan Ching Chuen

The remuneration committee has been authorised to determine the terms and conditions of the grant of the options.

No option has been granted to any shareholders, key management personnel or employees of the Company and its subsidiaries or their associates since the inception of the Scheme.

Independent auditor

The independent auditor, PricewaterhouseCoopers LLP, has expressed its willingness to accept re-appointment.

INDEPENDENT AUDITOR'S REPORT

To the Members of Azeus Systems Holdings Ltd.

Report on the Financial Statements

We have audited the accompanying financial statements of Azeus Systems Holdings Ltd (the "Company") and its subsidiaries (the "Group") set out on pages 27 to 66, which comprise the consolidated balance sheet of the Group and the balance sheet of the Company as at 31 March 2014, the consolidated income statement, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows of the Group for the financial year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Singapore Financial Reporting Standards, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair profit and loss accounts and balance sheets and to maintain accountability of assets.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Singapore Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements of the Group and the balance sheet of the Company are properly drawn up in accordance with the Singapore Financial Reporting Standards so as to give a true and fair view of the state of affairs of the Group and of the Company as at 31 March 2014, and the results, changes in equity and cash flows of the Group for the financial year ended on that date.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2014

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

1. General information

Azeus Systems Holdings Ltd. (the “Company”) is incorporated as an exempt company with limited liability under the Companies Act 1981 of Bermuda with registered office at Canon’s Court, 22 Victoria Street, Hamilton HM1, Bermuda. The principal place of business of the Company is 33rd Floor, Cambridge House, Taikoo Place, 979 King’s Road, Quarry Bay, Hong Kong.

The Company is listed on the Singapore Exchange.

The principal activity of the Company is that of an investment holding company. The principal activities of the subsidiaries are set out in Note 16.

2. Significant accounting policies

2.1 Basis of preparation

These financial statements have been prepared in accordance with Singapore Financial Reporting Standards (“FRS”) under the historical cost convention, except as disclosed in the accounting policies below.

The preparation of financial statements in conformity with FRS requires management to exercise its judgement in the process of applying the Group’s accounting policies. It also requires the use of certain critical accounting estimates and assumptions. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3.

Interpretations and amendments to published standards effective in 2014

On 1 April 2013, the Group adopted the new or amended FRS and Interpretations to FRS (“INT FRS”) that are mandatory for application for the financial year. Changes to the Group’s accounting policies have been made, as required, in accordance with the transitional provisions in the respective FRS and INT FRS.

The adoption of these new or amended FRS and INT FRS did not result in substantial changes to the Group’s and Company’s accounting policies and had no material effect on the amounts reported for the current or prior financial years except for the following:

FRS 19 (revised) Employee Benefits

FRS 19 (revised) amends the accounting for employment benefits. The Group has applied the standard retrospectively in accordance with the provisions of the standard.

FRS 19 (revised) requires past service costs to be recognised immediately in profit or loss. The standard replaces the interest cost on the defined benefit obligation and the expected return on plan assets with a net interest cost based on the net defined benefit asset or liability and the discount rate, measured at the beginning of the year. There is no change to determining the discount rate; this continues to reflect the interest rates of government bonds that are denominated in the currency in which the benefits will be paid.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2014

2. Significant accounting policies (continued)

2.1 Basis of preparation (continued)

FRS 19 (revised) Employee Benefits (continued)

There is a new term "remeasurements". This is made up of actuarial gains and losses, the difference between actual investment returns and the return implied by the net interest cost. The standard requires all actuarial gains and losses to be recognised in other comprehensive income.

Prior to the adoption of FRS 19 (revised), the Group recognised actuarial gains and losses as income or expense when the net cumulative unrecognised gains and losses for each individual plan at the end of the previous period exceeded 10% of the higher of the defined benefit obligation and the fair value of plan assets at that date. These gains or losses were recognised over the expected average remaining lives of the employees participating in the plans.

The effects on adoption are as follows:

2. Significant accounting policies (continued)

2.1 Basis of preparation (continued)

Amendment to FRS 1 Presentation of Items of Other Comprehensive Income

The Group has also adopted the amendment to FRS 1 Presentation of Items of Other Comprehensive Income on 1 April 2013. It requires items presented in other comprehensive income to be separated into two groups, based on whether or not they may be recycled to profit or loss in the future. The adoption of Amendments to FRS 1 does not have any material financial impacts. The Group has incorporated the additional disclosures required by FRS 1 into the financial statements.

2.2 Revenue recognition

Sales comprise the fair value of the consideration received or receivable for the sale of goods and rendering of services in the ordinary course of the Group's activities. Sales are presented, net of value-added tax and discounts, and after eliminating sales within the Group.

The Group assess its role as an agent or principal for each transaction and in an agency arrangement the amounts collected on behalf of the principal are excluded from revenue. The Group recognises revenue when the amount of revenue and related cost can be reliably measured, it is probable that the collectability of the related receivables is reasonably assured and when the specific criteria for each of the Group's activities are met as follows:

(a) *Service contracts*

A service contract is a contract specifically negotiated for the provision of IT services, including sales of hardware and software products as required under the relevant contract terms.

When the outcome of a service contract can be estimated reliably, contract revenue for the provision of IT services is recognised by using the stage of completion method. The stage of completion is measured by reference to the percentage of actual time costs incurred to date to estimated total time costs. When the outcome of a service contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that are likely to be recoverable.

Contract costs are recognised when incurred. When it is probable that total contract cost will exceed total contract revenue, the expected loss is recognised as an expense immediately. Costs incurred during the financial year in connection with future activity on a contract are excluded from costs incurred to date when determining the stage of completion of a contract and are presented as inventories or unbilled revenue on service contracts depending on their nature.

The aggregate of the costs incurred and the profit/loss recognised on each contract is compared against the progress billings up to the year end. Where costs incurred and recognised profits (less recognised losses) exceed progress billings, the balance is shown as unbilled revenue on service contracts in the balance sheet. Where progress billings exceed costs incurred plus recognised profits (less recognised losses), the balance is shown as amount due to customers on service contracts.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2014

2. Significant accounting policies (continued)

2.2 Revenue recognition (continued)

(b) *Maintenance fees*

Maintenance fees are recognised pro-rata over the period of maintenance. Fees relating to future periods are treated as advances from customers within "trade and other payables" in the balance sheet.

(c) *Support services fees and business process outsourcing fees*

Support service fees and business process outsourcing fees are recognised when the services are rendered.

(d) *Interest income*

Interest income is recognised using the effective interest method.

(e) *Dividend income*

Dividend income is recognised when the right to receive payment is established.

2.3 Group accounting

(a) *Subsidiaries*

(i) *Consolidation*

Subsidiaries are entities (including special purpose entities) over which the Group has power to govern the financial and operating policies so as to obtain benefits from its activities, generally accompanied by a shareholding giving rise to a majority of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date on which control ceases.

In preparing the consolidated financial statements, transactions, balances and unrealised gains on transactions between group entities are eliminated. Unrealised losses are also eliminated but are considered an impairment indicator of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests are that part of the net results of operations and of net assets of a subsidiary attributable to the interests which are not owned directly or indirectly by the equity holders of the Company. They are shown separately in the consolidated statement of comprehensive income, statement of changes in equity and balance sheet. Total comprehensive income is attributed to the non-controlling interests based on their respective interests in a subsidiary, even if this results in the non-controlling interests having a deficit balance.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2014

2. Significant accounting policies (continued)

2.3 Group accounting (continued)

(b) *Disposals of subsidiaries*

When a change in the Company's ownership interest in a subsidiary results in a loss of control over the subsidiary, the assets and liabilities of the subsidiary including any goodwill are derecognised. Amounts recognised in other comprehensive income in respect of that entity are also reclassified to profit or loss or transferred directly to retained earnings if required by a specific Standard.

Please refer to the paragraph 2.5 "Investments in subsidiaries" for the accounting policy on investments in subsidiaries in the separate financial statements of the Company.

2.4 Property, plant and equipment

(a) *Measurement*

Property, plant and equipment are initially recognised at cost and subsequently carried at cost less accumulated depreciation and accumulated impairment losses.

The cost of an item of property, plant and equipment initially recognised includes its purchase price and any cost that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

(b) *Depreciation*

Depreciation on property, plant and equipment is calculated using the straight-line method to allocate their depreciable amounts over their estimated useful lives as follows:

	<u>Useful lives</u>
Leasehold improvements and furniture and fixtures	3 - 5 years
Office equipment	2 - 5 years
Computer equipment	3 years

The residual values, estimated useful lives and depreciation method of property, plant and equipment are reviewed, and adjusted as appropriate, at each balance sheet date. The effects of any revision are recognised in profit or loss when the changes arise.

(c) *Subsequent expenditure*

Subsequent expenditure relating to property, plant and equipment that has already been recognised is added to the carrying amount of the asset only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repair and maintenance expenses are recognised in profit or loss when incurred.

(d) *Disposal*

On disposal of an item of property, plant and equipment, the difference between the disposal proceeds and its carrying amount is recognised in profit or loss.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2014

2. Significant accounting policies (continued)

2.5 Investments in subsidiaries

Investments in subsidiaries are carried at cost less accumulated impairment losses in the Company's balance sheet. On disposal of investments in subsidiaries, the difference between disposal proceeds and the carrying amounts of the investments are recognised in profit or loss.

2.6 Impairment of non-financial assets

*Property, plant and equipment
Investments in subsidiaries*

Property, plant and equipment and investments in subsidiaries are tested for impairment whenever there is any objective evidence or indication that these assets may be impaired.

For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash inflows that are largely independent of those from other assets. If this is the case, the recoverable amount is determined for the CGU to which the asset belongs.

If the recoverable amount of the asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount.

The difference between the carrying amount and recoverable amount is recognised as an impairment loss in profit or loss.

An impairment loss for an asset is reversed if, and only if, there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of this asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortisation or depreciation) had no impairment loss been recognised for the asset in prior years.

A reversal of impairment loss for an asset is recognised in profit or loss.

2.7 Financial assets

(a) *Loans and receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are presented as current assets, except for those expected to be realised later than 12 months after the balance sheet date which are presented as non-current assets. Loans and receivables are presented as "trade and other receivables", "cash and cash equivalents" and "unbilled revenue on service contracts" on the balance sheet.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2014

2. Significant accounting policies (continued)

2.7 Financial assets (continued)

(b) *Recognition and derecognition*

Regular way purchases and sales of financial assets are recognised on trade-date – the date on which the Group commits to purchase or sell the asset.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership. On disposal of a financial asset, the difference between the carrying amount and the sale proceeds is recognised in profit or loss. Any amount in the fair value reserve relating to that asset is reclassified to profit or loss.

(c) *Initial measurement*

Financial assets are initially recognised at fair value plus transaction costs.

(d) *Subsequent measurement*

Financial assets, available-for-sale are subsequently carried at fair value. Loans and receivables are subsequently carried at amortised cost using the effective interest method.

(e) *Impairment*

The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired and recognises an allowance for impairment when such evidence exists.

(i) *Loans and receivables*

Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy, and default or significant delay in payments are objective evidence that these financial assets are impaired.

The carrying amount of these assets is reduced through the use of an impairment allowance account which is calculated as the difference between the carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. When the asset becomes uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are recognised against the same line item in profit or loss.

The allowance for impairment loss account is reduced through profit or loss in a subsequent period when the amount of impairment loss decreases and the related decrease can be objectively measured. The carrying amount of the asset previously impaired is increased to the extent that the new carrying amount does not exceed the amortised cost had no impairment been recognised in prior periods.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2014

2. Significant accounting policies (continued)

2.7 Financial assets (continued)

(e) Impairment (continued)

(ii) *Financial assets, available-for-sale*

In addition to the objective evidence of impairment described in Note 2.7(e)(i), a significant or prolonged decline in the fair value of an entity security below its cost is considered as an indicator that the available-for-sale financial asset is impaired.

If any evidence of impairment exists, the cumulative loss that was recognised in the fair value reserve is reclassified to profit or loss. The cumulative loss is measured as the difference between the acquisition cost (net of any principal repayments and amortisation) and the current fair value, less any impairment loss previously recognised as an expense. The impairment losses recognised as an expense on equity securities are not reversed through profit or loss.

2.8 Inventories

Inventories comprise hardware and software products to be used in IT projects under the relevant contract terms and are carried at the lower of cost and net realisable value. Cost is determined using the first-in, first-out method. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

2.9 Trade and other payables

Trade and other payables represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. They are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). Otherwise, they are presented as non-current liabilities.

Trade and other payables are initially recognised at fair value, and subsequently carried at amortised cost using the effective interest method.

2.10 Fair value estimation of financial assets and liabilities

The fair values of financial instruments traded in active markets (such as exchange-traded and over-the-counter securities and derivatives) are based on quoted market prices at the balance sheet date. The quoted market prices used for financial assets are the current bid prices; the appropriate quoted market prices for financial liabilities are the current asking prices.

The fair values of financial instruments that are not traded in an active market are determined by using valuation techniques. The Group uses a variety of methods and makes assumptions that are based on market conditions existing at each balance sheet date. Where appropriate, quoted market prices or dealer quotes for similar instruments are used. Valuation techniques, such as discounted cash flow analyses, are also used to determine the fair values of the financial instruments.

The fair values of current financial assets and liabilities carried at amortised cost approximate their carrying amounts.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2014

2. Significant accounting policies (continued)

2.11 Operating lease payments

Leases of assets where substantially all risks and rewards incidental to ownership are retained by the lessors are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessors) are recognised in profit or loss on a straight-line basis over the period of the lease.

2.12 Income taxes

Current income tax for current and prior periods is recognised at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

Deferred income tax is recognised for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

A deferred income tax liability is recognised on temporary differences arising on investments in subsidiaries and joint venture, except where the Group is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

A deferred income tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised.

Deferred income tax is measured:

- (i) at the tax rates that are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date; and
- (ii) based on the tax consequence that will follow from the manner in which the Group expects, at the balance sheet date, to recover or settle the carrying amounts of its assets and liabilities.

Current and deferred income taxes are recognised as income or expense in profit or loss, except to the extent that the tax arises from a business combination or a transaction which is recognised directly in equity. Deferred tax arising from a business combination is adjusted against goodwill on acquisition.

For the financial year ended 31 March 2014

2. Significant accounting policies (continued)

2.13 Employee compensation

Employee benefits are recognised as an expense, unless the cost qualifies to be capitalised as an asset.

(a) *Employee leave entitlements*

Employee entitlements to annual leave and long-service leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long-service leave as a result of services rendered by employees up to the balance sheet date.

(b) *Pension benefits*

The Group operates both defined retirement benefits and defined contribution post-employment benefit plans.

Defined contribution plans are post-employment benefit plans under which the Group pays fixed contributions into separate entities such as the provident fund scheme in Hong Kong on a mandatory, contractual or voluntary basis. The Group has no further payment obligations once the contributions have been paid. The Group's contributions are recognised as employee compensation expense when they are due.

Defined retirement benefits plans are post-employment benefit pension plans other than defined contribution plans. Defined retirement benefit plans typically define the amount of benefit that an employee will receive on or after retirement, usually dependent on one or more factors such as age, years of service and compensation.

The Group has a non-contributory defined retirement benefits plan for the employees of its subsidiary in accordance with the local conditions and practices in the Philippines. The plan is generally funded through payments to trustee-administered funds governed by local regulations and practices and approved by the local management. A defined retirement benefits plan is a pension plan that defines an amount of pension benefit to be provided, usually as a function of one or more factors such as age, years of service or compensation.

The liability recognised in the balance sheet in respect of a defined retirements benefits pension plan is the present value of the defined retirements benefits obligation at the balance sheet date less the fair value of plan assets, together with adjustments for unrecognised past service costs. The defined retirements benefits obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined retirements benefits obligation is determined by discounting the estimated future cash outflows using the interest rates of government bonds that are denominated in the currency in which the benefits will be paid, and have terms to maturity which approximate the terms of the related pension liability.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the period when they arise.

Past service costs are recognised immediately in profit or loss.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2014

2. Significant accounting policies (continued)

2.13 Employee compensation (continued)

(c) *Share grant*

A controlling shareholder has implemented a share grant incentive scheme for certain key employees. Under this incentive, the managing director and controlling shareholder will transfer ordinary shares from his personal shareholding to such employees from time to time. The number of shares to be transferred and the terms of such transfers will be in his absolute discretion, and entitled employees will be providing no, nominal or discounted consideration for such transfers.

The fair value of the employee services received in exchange for the grant of the shares from the controlling shareholder is recognised as an expense in profit or loss with a corresponding increase in the reserve on the date of grant. The fair value of the employee services received is determined from the quoted market value of the shares granted in consideration of the services performed at the date of the grant. The shares vest immediately upon being granted.

(d) *Termination benefits*

Termination benefits are those benefits which are payable when employment is terminated before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Group recognises termination benefits when it is demonstrably committed to either: terminating the employment of current employees according to a detailed formal plan without possibility of withdrawal; or providing termination benefits as a result of an offer made to encourage voluntary redundancy. Benefits falling due more than 12 months after balance sheet date are discounted to present value.

2.14 Currency translation

(a) *Functional and presentation currency*

Items included in the financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates ("functional currency"). The financial statements are presented in Hong Kong Dollar, which is the functional currency of the Company.

(b) *Transactions and balances*

Transactions in a currency other than the functional currency ("foreign currency") are translated into the functional currency using the exchange rates at the dates of the transactions. Currency translation differences resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the closing rates at the balance sheet date are recognised in profit or loss.

Non-monetary items measured at fair values in foreign currencies are translated using the exchange rates at the date when the fair values are determined.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2014

2. Significant accounting policies (continued)

2.14 Currency translation (continued)

(c) Translation of Group entities' financial statements

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (i) Assets and liabilities are translated at the closing exchange rates at reporting date;
- (ii) Income and expenses are translated at average exchange rates (unless the average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated using the exchange rates at the dates of the transactions); and
- (iii) All resulting currency translation differences are recognised in the foreign currency translation reserve.

Goodwill and fair value adjustments arising on the acquisition of foreign operations on or after 1 April 2005 are treated as assets and liabilities of the foreign operations and translated at the closing rates at the reporting date. For acquisitions prior to 1 April 2005, the exchange rates at the dates of acquisition are used.

2.15 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the executive committee whose members are responsible for allocating resources and assessing performance of the operating segments.

2.16 Cash and cash equivalents

For the purpose of presentation in the consolidated statement of cash flows, cash and cash equivalents include cash on hand and deposits with financial institutions which are subject to an insignificant risk of change in value.

2.17 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares are deducted against the share capital account.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2014

2. Significant accounting policies (continued)

2.18 Dividends to Company's shareholders

Dividends are recognised when the dividends are approved for payments.

3. Critical accounting estimates and judgements

Estimates, assumptions and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Revenue recognition

The Group recognises contract revenue for provision of IT services based on the percentage-of-completion method. The stage of completion is measured by reference to the contract costs incurred to date compared to the estimated total costs for the contract.

Significant assumptions are required to estimate total contract costs and the recoverable variation works that affect the stage of completion and the contract revenue respectively. In making these estimates, management has relied on past experience and the work of specialists.

If the estimated total costs for the contract differ by 10% from management's estimates, the Group's profit will increase/decrease by approximately HK\$9.4 million and HK\$8.2 million respectively.

26. Financial risk management

Financial risk factors

The Group's activities expose it to market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management strategy seeks to minimise adverse effects from the unpredictability of financial markets on the Group's financial performance.

The Board of Directors is responsible for setting the objectives and underlying principles of financial risk management for the Group. The management continually monitors the Group's risk management process to ensure that an appropriate balance between risk and control is achieved. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities.

The Audit Committee oversees how management monitors compliance with the Group's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Group.

There has been no change to the Group's exposure to these financial risks or the manner in which it manages and measures the risk since the previous financial year.

The Group's exposures to financial risks are set out below.

(a) Market risk

(i) *Currency risk*

The Group operates in Asia and Europe with dominant operations in Hong Kong, the People's Republic of China, the Philippines and the United Kingdom. Entities in the Group regularly transact in currencies other than their respective functional currencies ("foreign currencies") such as the Hong Kong Dollar ("HKD"), Chinese Yuan or Renminbi ("RMB"), Philippine Peso ("PESO") and Great Britain Pound ("GBP").

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2014

26. Financial risk management (continued)

(a) Market risk (continued)

(i) Currency risk (continued)

Currency risk arises within entities in the Group when transactions are denominated in foreign currencies. The Group is exposed to currency risk on sales and purchases that are denominated primarily in United States Dollar ("USD"). In addition, the Group is exposed to currency translation risk on the net assets in foreign operations.

The Group manages currency risk by matching assets and liabilities in the same currency denomination and supplemented with appropriate financial instruments where necessary.

The Group's currency exposure based on the information provided to key management is as follows:

(i) *Currency risk (continued)*

As at 31 March 2014 and 2013, the net financial assets/(liabilities) denominated in a currency other than the respective functional currencies of the Group entities are mainly in USD. Since HKD and USD are pegged, no significant change in the net financial assets/(liabilities) position is expected from any changes on the exchange rate between the HKD and USD. Hence, the Group's and Company's currency exposure is insignificant and no foreign currency sensitivity analysis is performed accordingly.

(ii) *Cash flow and fair value interest rate risks*

Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Fair value interest rate risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market interest rates. The Group's and the Company's exposure to market risk for changes in interest rates relates primarily to the Group's cash and cash equivalents placed with banks and financial institutions in Hong Kong and Singapore.

Most of the interest bearing cash and cash equivalents placed with the banks are short-term in nature (Note 11). Variation in short-term interest rate is not expected to have a material impact on the results of the Group.

The sensitivity analysis below have been determined based on the exposure to interest rates for cash and cash equivalents placed with banks and financial institutions in Hong Kong and Singapore at the balance sheet date. A 0.5% increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 0.5% higher/lower with all other variables held constant, the Group's profit for the year ended 31 March 2014 would increase/decrease by approximately HK\$155,000 (2013: increase/ decrease by approximately HK\$201,000). No analysis is prepared at the Company level as the sensitivity is immaterial.

(b) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The major classes of financial assets of the Group and of the Company are bank deposits and trade receivables. The Group adopts the policy of only dealing with creditworthy counterparties to mitigate the risk of financial losses from default.

Credit risk is managed through the application of credit approvals, credit limits and monitoring procedures. Where appropriate, the Group obtains collateral from its customers. Cash terms, advance payments and letter of credits are required for customers of lower credit standing. An allowance for impairment is made where there is an identified loss event which, based on previous experience, is evidence of a reduction in the recoverability of the cash flows. The Group's trade receivables comprise 4 debtors (2013: 6 debtors) with Hong Kong's government sector collectively represented 60% (2013: 91%) of trade receivables.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2014

26. Financial risk management (continued)

(b) Credit risk (continued)

As at year-end, the Group does not hold any collateral. The maximum exposure to credit risk for each class of financial instruments is the carrying amount of that class of financial instruments presented on the balance sheet.

The credit risk for trade receivables based on the information provided to key management is as follows:

	Group	
	2014	2013
	HK\$'000	HK\$'000
<u>By geographical areas</u>		
Hong Kong	2,093	5,420
Other countries	1,398	30
	3,491	5,450
<u>By types of customers</u>		
Non-related parties		
- Public sector	2,833	4,981
- Other companies	658	469
	3,491	5,450

(i) *Financial assets that are neither past due nor impaired*

Bank deposits that are neither past due nor impaired are mainly deposits with banks with high credit-ratings assigned by international credit-rating agencies. Trade receivables that are neither past due nor impaired are substantially companies with a good collection track record with the Group.

The Group's trade receivables not past due does not include receivables that would have been past due or impaired if the terms were not re-negotiated during the financial year. Other financial assets that are neither past due nor impaired consist primarily of advances to employees that are collected through salary deductions and other receivable in which the Group has the right to collect in the next twelve months.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2014

26. Financial risk management (continued)

(b) Credit risk (continued)

(ii) *Financial assets that are past due and/or impaired*

There is no other class of financial assets that is past due and/or impaired except for trade receivables.

The age analysis of trade receivables past due but not impaired is as follows:

	Group	
	2014	2013
	HK\$'000	HK\$'000
Past due < 3 months	2,715	4,387

The carrying amount of trade receivables individually determined to be impaired and the movement in the related allowance for impairment are as follows:

	Group	
	2014	2013
	HK\$'000	HK\$'000
Past due over 3 months	738	231
Less: Allowance for impairment	(738)	(231)
	–	–
Beginning of financial year	(231)	(231)
Allowance made	(507)	–
End of financial year	(738)	(231)

(c) Liquidity risk

Liquidity risk is the risk that the Group or the Company will encounter difficulty in meeting financial obligations due to shortage of fund. The Group's and the Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. The Group relies on its internal working capital to fund most of its operating and investing activities. The liquidity risk of the Group is minimal as it maintains sufficient liquid funds to meet their normal operating activities without using bank or other borrowings.

As at 31 March 2014 and 2013, all financial liabilities of the Group and Company have a maturity date of less than one year.

(d) Capital risk

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern and to maintain an optimal capital structure so as to maximise shareholder value. In order to maintain or achieve an optional capital structure, the Group may issue new shares, obtain new borrowings or sell assets to reduce borrowings.

The Group employs shareholders' equity only and does not have any borrowings.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2014

26. Financial risk management (continued)

(e) Financial instruments by category

The carrying amount of the different categories of financial instruments is as disclosed on the face of the balance sheet and in Note 11, Note 12 and Note 18, except for the following:

	Group		Company	
	2014 HK\$'000	2013 HK\$'000	2014 HK\$'000	2013 HK\$'000
Loans and receivables	138,001	130,893	74,610	83,729
Financial liabilities at amortised cost	12,153	14,798	1,430	1,384

27. Immediate and ultimate holding corporation

The Company's immediate and ultimate holding corporation is Mu Xia Ltd., incorporated in Bermuda.

28. Related party transactions

In addition to the information disclosed elsewhere in the financial statements, the following transactions took place between the Group and related parties at terms agreed between the parties:

Key management personnel compensation

Key management personnel compensation is as follows:

	Group	
	2014 HK\$'000	2013 HK\$'000
Salaries and other short-term employee benefits	3,458	3,450
Employer's contribution to:		
- defined contribution plans	15	17
- defined retirement benefits	318	190
	3,791	3,657

Included in the above is total compensation to directors of the Company amounting to HK\$1,284,000 (2013: HK\$1,281,000).

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2014

29. Segmental information

Management has determined the operating segments based on the reports reviewed by the Executive Committee (“Exco”) that are used to make strategic decisions. The Exco comprised the Chief Executive Officer and the Group Financial Controller.

The Exco considers the Group as a single operating segment which is primarily engaged in the provision of information technology (“IT”) services. The services are similar in nature and these are based on the same backbone infrastructure. The costs are mainly staff costs incurred to provide IT services to customers. There are 3 major revenue streams: “IT services, including sales of hardware and software”, “Maintenance and Support Services” and “Business Process Outsourcing”.

IT services, including sales of hardware and software: This includes revenue arising from contract specifically negotiated for the provision of IT services, including sales of hardware and software products as required under the relevant contract terms.

Maintenance and Support Services: This includes revenue arising from provision of maintenance and support services to customers.

Business Process Outsourcing: This includes revenue arising from outsourcing of headcount for provision of IT support services to customers.

The composition of the Group’s revenue is the same as that disclosed in Note 4.

As the reports reviewed by the Exco have been prepared on the same basis as the financial statements, there are no reconciling items to be disclosed.

The Company is domiciled in Bermuda with no revenue arising from the country of domicile. Majority of the Group’s revenues from external customers are attributed to business activities in Hong Kong.

Revenue of HK\$163,817,000 (2013: HK\$114,600,000) and HK\$1,535,000 (2013: HK\$595,000) from external customers are derived from the provision of IT services to the public sector of Hong Kong Government and public sector of United Kingdom respectively.

30. Contingent events

In the prior year, there were disputes with a customer due to different interpretation of the requirements within the contract. These disputes were subsequently brought to the arbitration in the prior year, as agreed with the customer. An interim award of HK\$40.9 million (Note 7), which was issued in favour of the Group as settlement of such disputes, was recognised and received in the previous financial year. All the associated project and legal costs were recognised as and when incurred.

During the financial year, the Group received the final ruling from the arbitrator, which concluded that the customer shall also pay the Group’s legal costs associated with the arbitration on a party to party basis. However, the Group has not recognised the compensation award during the financial year as it is currently in the process of negotiating the extent of the legal cost compensation with the customer. Should an agreement could not be reached with the customer, then a taxation proceeding would commence.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2014

31. New or revised accounting standards and interpretations

The Group has not early adopted any mandatory standards, amendments and interpretations to existing standards that have been published but are only effective for the Group's accounting periods beginning on or after 1 April 2014. However, management anticipates that the adoption of these standards, amendments and interpretations will not have a material impact on the financial statements of the Group in the period of their initial adoption.

32. Authorisation of financial statements

These financial statements were authorised for issue in accordance with a resolution of the Board of Directors of Azeus Systems Holdings Ltd. on 12 June 2014.
